EDUCATION

St.Lawrence High School **27, Ballygunge Circular Rd, Ballygunge, Kolkata, West Bengal 700019** Aug. 2007 - May 2019

Netaji Subhash Engineering College **Mauza Ranabhutia, Techno City, Garia, Ranabhutia, West Bengal 700152**
BTech in Electrical Engineering June. 2019- September 2023

EXPERIENCE

Web Developer **May 2023 - Present**
Matainja Technologies 216, Canal S Rd, Tangra, Kolkata, West Bengal 700105

- Developed and maintained web applications using Laravel and CodeIgniter frameworks.
- Built RESTful APIs using Laravel, ensuring secure and efficient data handling.
- Designed and implemented frontend interfaces with HTML, CSS, and jQuery, ensures responsiveness and user-friendly designs.
- Integrated third-party APIs into web applications, enhancing functionality and performance.
- Worked with MySQL to design and optimize database schemas, write queries, and manage data efficiently.
- Gained introductory experience with NoSQL databases, exploring their use cases and implementation.
- Utilized JavaScript and React.js to develop dynamic and interactive UI components.
- Collaborated on projects using Git for version control and team coordination.
- Followed best practices for MVC architecture and adhered to coding standards for maintainable code.

PROJECTS

IncomeKaro | React.js, Laravel , SQL , HTML, CSS **September 2023 - January 2024**

- Developed a web application using Laravel for RESTful APIs and React.js for the frontend.
- Integrated dynamic features for data management and user interaction.
- Implemented efficient database operations and API security measures.
- Focused on a responsive and user-friendly UI to enhance user experience.
- Optimized database operations using Eloquent ORM, ensuring efficient data handling for real-time transactions.
- Developed reusable React components and ensured a responsive, mobile-first user interface using Tailwind CSS.
- Collaborated with a team member to maintain code quality, follow best practices, and manage version control using Git.
- Worked closely with startup stakeholders to align the product with their business goals and support its growth.
